

# Fix It

Strategy	Identify where the text was difficult.	Identify what is difficult about the text.	Reread. What did you figure out?	Read-on. What did you figure out?
Example	<i>"I don't understand the first paragraph on pg. 15."</i>	<i>"I don't understand what the author means when she says, 'The young couple was building their nest egg.'"</i>	<i>I looked back and it says that the couple wants to save for a house. Maybe it has to do with a house?</i>	<i>The rest of the page is about ways they can save money. I think that nest egg has something to do with that.</i>
